

# MINING MILL OPERATIONS

## SUMMER ONLINE PROGRAM

### About the program

- The Mining Mill Operations program prepares you for a career operating mill equipment and systems used in the large scale mining industry. Mill Operators work where the mined ore is crushed, milled, and sent through the various systems to extract the minerals and metals.
- Earn the MSHA Part 48 Surface New Miner safety certification.
- Program is offered as an online program (10 weeks), with a required (1 week) hands-on session in Fairbanks.
- **Program runs May 20, 2024 through Aug. 2, 2024.**
