Job Description:

We are seeking new members to join our Union. As a Mechanical Insulator, you will be responsible for installing, maintaining, and repairing insulation on various mechanical systems to ensure energy efficiency, safety, and system performance. Traveling to different job sites around Alaska.

RESPONSIBILITIES:

Install Insulation: Apply insulation materials as directed by a Journeyman, to pipes ducts, tanks, boilers, and other mechanical systems according to specifications and safety standards.

Collaborate with Team Members: Work closely with other tradespeople to complete installations efficiently.

Experience:

Some construction background is a plus.

Physical Fitness:

Must be able to lift and carry 50lbs, climb ladders, work at heights, work in extreme cold/hot temperatures and work in confined spaces.
